

**HIGHLIGHTS:**

Heating System:  
Calorex Air to  
Water Heat  
Pump

Install Date:  
Sep 2009

**Results:**

- SIGNIFICANT ENERGY SAVINGS
- RADIATORS HOTTER

**INTRODUCTION**

Emotion Energy are a company based in Scotland who specialise in the installation of heat pumps. Tadpole has been lab tested on a ground source heat pump by Ice Energy and currently by Harrogate Borough Council but this is the first live test on an air to water heat pump.

**RESULTS ACHIEVED WITH TADPOLE INSTALLED**

Emotion Energy approached us after installing Tadpole to advise that they were very impressed with the performance of Tadpole. They noted that there was a difference in temperature in the radiators from 49°C previously to 55°C.

They intend to promote Tadpole in Scotland and an associate company in Norway.
